

What is claimed is:

1. A bangle watch box comprising:
 - a housing with said housing having a wall portion and an outer surface;
 - a cover mounted on said housing;
 - a wristwatch support collar mounted in said housing;
 - first locking means for reversibly locking said wristwatch support collar and said housing;
 - a plurality of bangles, with said bangles each having an aperture and with said housing disposed projecting through said apertures;
 - second locking means for locking said bangles and said housing; and
 - third locking means for locking said cover, said bangles and said housing.
2. The bangle watch box as claimed in Claim 1 wherein said first locking means comprises a locking member with said locking member slideably mounted in said housing.
3. The bangle watch box as claimed in Claim 2 wherein said locking member projects through said wristwatch support collar.
4. The bangle watch box as claimed in Claim 2 wherein said locking member comprises at least one locking prong.
5. The bangle watch box as claimed in Claim 4 wherein said locking prong is flexible.
6. The bangle watch box as claimed in Claim 4 wherein said locking prong engages said housing.

7. The bangle watch box as claimed in Claim 1 wherein each of said plurality of bangles comprises a generally square member having a centrally disposed aperture, and having four corner portions and four edge portions.

8. The bangle watch box as claimed in Claim 1 wherein each of said plurality of bangles comprises a generally planar member having an aperture, a plurality of edge portions and a plurality of corner portions.

9. The bangle watch box as claimed in Claim 8 wherein each of said plurality of bangles comprises rounded corner portions.

10. The bangle watch box as claimed in Claim 8 wherein each of said plurality of bangles comprises rounded edge portions.

11. The bangle watch box as claimed in Claim 1 wherein said second locking means comprises a flange portion disposed on said cover.

12. The bangle watch box as claimed in Claim 1 wherein said second locking means comprises a flange portion disposed on said housing.

13. The bangle watch box as claimed in Claim 1 wherein said cover and said housing form a threaded engagement.

14. The bangle watch box as claimed in Claim 1 wherein said cover is made of a transparent material.

15. The bangle watch box as claimed in Claim 1 wherein said cover is made of a translucent material.

16. The bangle watch box as claimed in Claim 1 wherein said housing is made of a transparent material.

17. The bangle watch box as claimed in Claim 1 wherein said housing is made of a translucent material.

18. The bangle watch box as claimed in Claim 1 wherein said plurality of bangles are made of a transparent material.

19. The bangle watch box as claimed in Claim 1 wherein said plurality of bangles are made of a translucent material.

20. The bangle watch box as claimed in Claim 1 wherein said cover, said housing, and said plurality of bangles are made of plastic.

21. The bangle watch box as claimed in Claim 1 wherein said cover is generally hemispherical.

22. The bangle watch box as claimed in Claim 1 wherein said third locking means comprises a sleeve member.

23. The bangle watch box as claimed in Claim 22 wherein said sleeve member comprises a first aperture portion with said first aperture portion disposed to accept a portion of said cover.

24. The bangle watch box as claimed in Claim 23 wherein said sleeve further comprises a second aperture portion and a third aperture portion with said second and said aperture portions disposed to accept selected corner portions of said bangles.

25. The bangle bracelet as claimed in Claim 1 further comprising tag means with said tag means connected to said cover.

26. The bangle bracelet as claimed in Claim 21 wherein said sleeve further comprises inter engaging locking portions.
